

Use Mobile Banking to Pay for Goods Purchased over Internet

The State Bank Mobile Banking can be used to make payment of goods purchased over more than 3000 websites. The payment is made using the facility of PayMate.

After completing the purchase over Internet, while checking out, various options are available to the user – (i) Credit Card (ii) Debit Card (iii) Direct debit to Bank account (iv) Paymate.

If you wish to pay using State Bank Mobile Banking, click on Paymate and enter your mobile number. You will be carried to a page where the details of your transactions are shown and you have to choose to make payment using three options – (i) Paymate (ii) IVR (iii) SBI.

Click on SBI and you will get the Merchant Name, Merchant Data and Amount.

Open the State Bank Mobile Banking application. Go to MCommerce > Merchant Payment > enter the details as shown on the website and send the request with your MPIN. The completion of transaction will be advised on the website.
